En Plein Air 2019

Thank you to all who participate and become members!
Some helpful information: DEMOS typically involve watching a demonstration (bring a chair) and if you choose to paint along with or after the demo please do so. They are \$15 for members and \$20 for non-members. You may come to the site and not join the demo, in which case there is no charge for members.

WORKSHOPS are new this year. The artists doing the workshops are professionals who give workshops on an ongoing basis. They choose the fees which are listed in the schedule, one for members and one for non-members. Please sign up and pay on their websites, not to KAA.

It is a great opportunity for learning from the masters. Please bring your painting materials and be prepared to experience painting on location. You may work in any media but both of these workshops are with oil painters.
